

CUPRO ACIDIL® AP 2.5

LIQUID ACIDIFIER

LIQUID FOR ALL SPECIES

Contains: 1-2 propandiol, sucrose, glucose syrup.

Additives per kg:

Compounds of trace elements:

3b405 Copper (Copper sulphate-II pentahydrate) 2,500.00 mg

Preservatives:

E 330 Citric acid (1a) - E 270 Lactic acid - 1a338 Orthophosphoric acid - E 284 Ammonium propionate

DESCRIPTION

CUPRO ACIDIL® AP 2.5 is a liquid feed designed for treatment in the drinking water of intensive livestock farming in the livestock industry. It is composed of a set of organic and inorganic acidifiers in harmony with each other and copper sulphate pentahydrate.

- Control of bacterial proliferation in water and intestines
- Stabilization of intestinal pH
- Maintains a correct saprophytic bacterial flora (eubiosis)
- Astringent

ACTION

CUPRO ACIDIL® AP 2.5 has all the qualities of an excellent intestinal acidifier but the balanced fractionation of its components enhances its qualities and effectiveness. In addition, the combination of acidifiers with copper sulphate pentahydrate allows to exploit a natural synergy between the components of the product, developing a strong intestinal action.

DOSAGE

To be administered in the ratio of 0.1% -0.4% of the complete feed.

To be administered in water from 50-200 g per 100L of water

Do not exceed the recommended dose

Dosages may vary depending on the health situation of the farm.

The technical service is available to recommend the dosage.

PACKAGES

Available in tanks of kg. 10-25-200-1000

Store in a cool and dry place, away from heat sources.

Store within 12 months from the date of manufacture.

FAMI-QS certified
