

## LIQUI-PHOS 55

### TRACE ELEMENTS- LIQUID

#### LIQUID FOR BIRDS

Contains: Phosphorus mg. 53,000 – Magnesium mg. 5.850 – Sodium mg. 27,000 – E5 Manganous sulphate monohydrate mg. 18,480 – E4 Cupric sulphate pentahydrate mg. 2.358 – E1 Ferrous sulphate monohydrate mg. 1.824 E6 Zinc sulphate monohydrate mg. 2,795 Preservatives: E338 Orthophosphoric Acid mg. 2.795

#### DESCRIPTION

LIQUI-PHOS 55 is a liquid formulation of micro and trace elements appropriately dosed to prevent deficiency states due to metabolic dysfunctions or as a nutritional supplement to be applied for a short time in intensive poultry farming.

The product is perfectly soluble in drinking water.

- Correct deficiency states of trace elements
- Improves Ca-P intake
- Improves the quality of the egg shell

#### ACTION

LIQUI-PHOS 55 is indicated to prevent dysfunctions caused by deficiency states of the elements that compose, to improve the budget and the assumption of the Ca-P.

In laying hens and breeders improves the quality and consistency of the shell.

#### DOSAGE

To be administered at the rate of 0.2%–0.25% in drinking water.

The duration of treatment is from 3 to 7 days.

Repeat as needed.

Solutions must be renewed every 24 hours

Dosages may vary depending on the health situation of the farm.

The technical service is available to advise the dosage.

#### PACKAGES

Available in tanks of 25 kg

Store in a cool, dry place, away from heat sources.

To be consumed within 12 months from the date of production.
