DESCRIPTION

It is a water-soluble symbiotic composed of a prebiotic component and a probiotic component consisting of the synergy of 3 strains of live microorganisms. The balance of intestinal flora means intestinal health.

Vitalac D2 Triple is a modern product adapted to new demands related to animal welfare, public health and farm health. With the administration of probiotics you get:

- Healthier animals and drier stools
- Better nutrient intake
- Reduction of morbidity/mortality
- Reductions in intestinal rot products

ACTION

Vitalac D2 Triple is a stabilizer of the intestinal flora.
It is safe for animals, operators and the environment.
The effectiveness is scientifically proven.
