

ZOOCALM S 210

CONTROL OF NERVOUS MANIFESTATIONS OF BIRDS

LIQUID FOR BIRDS

Contains: Sodium chloride, Chaste tree (*Agnus castus* L.) fruit powder, Hops (*Humulus lupulus* L.) flowers powder.

ADDITIVES (per Kg)

Binding, anti-caking and coagulating agents: E551a Precipitated and dried silicic acid: 260,000mg.

E551a Precipitated and dried silicic acid: 260,000mg.

ORGANOLEPTIC ADDITIVES: Botanically defined natural products: Juniper (*Juniperus communis* L.) buds extract: 600mg.

DESCRIPTION

The phyto derivative active ingredients contained in ZOOCALM S 210, as properties reported in the relevant scientific literature, play a synergistic action during all the phases in which it is necessary to reassure nervous and aggressive animals (turkeys in the phase of sexual maturity, laying hens, breeders, minor poultry species, with obvious advantages on animal welfare and loss of production).

- Calming effect
- Reduction of animal aggression

ACTION

ZOOCALM S 210 is able to reduce the aggressiveness of animals in the various stages of growth, it is indicated for turkeys in the phase of sexual maturity, laying hens, breeders, minor poultry species, with obvious advantages on animal welfare and loss of production.

DOSAGE

Administer at the following doses:

g.150 per 100kg. of feed for 15 days.

Continue with g.120 per 100kg of feed as needed.

Dosages may vary depending on the health situation of the farm.

The technical service is available to advise the dosage.

PACKAGES

Available in bags of 25 Kg

Store in a cool, dry place, away from heat sources.

To be consumed within 24 months from the date of production.
