# QUALITY FEED

Animal health and welfare products

## OUR MISSION

The Mission of Zoonimica® is to provide a healthy product, safe and quantitatively high and to communicate to the customer every characteristic of the product.

Privileging and consolidating professional collaborations with Italian and European companies specializing in product research and preparation, all through a strict policy of controls and certifications throughout the entire design cycle.

Thanks to the commitment of all its employees, veterinarians, product specialists, Zoonimica® keeps intact the enthusiasm and optimism to always, necessary to be able to meet the needs of all customers in compliance with the rules community and modern markets.

# OUR STORY

Zoochimica® It was founded in 1983 from the experience of its founders already active in the Italian livestock progress. Today the company produces and markets chemicals, raw materials, premixes and complementary feed for the livestock industry, for feed mills and farms.

**1960**

## Start

Zoochimica® 's founders began their business at a time when Italy was transitioning from rural farming to intensive ones. Emilia Romagna combines features in its territory that allowed for rapid livestock development.

**1983**

## Foundation

Year of foundation of the first company.  
Shift from production to trade in livestock products.  
First collaborations with foreign companies in the industry begin.

**1988**

### **Second company**

Zoochimica® founds the second company and favors collaborations professionals with Italian and European companies specializing in the research and preparation of pharmaceutical products, devoting particular attention to quality standards, controls and product safety.

**2000**

### **Third company**

The third company is born. Zoochimica® begins to face the foreign market with special attention, has two fundamental aspects such as professional technical knowledge and innovative development of production processes related to the new products.

# COMPANY TEAM

Zoochimica® manufactures and markets its products under its own brand and with its own customized packaging.

**The strength that differentiates the company from many others in Italy is the speed of “problem solving” because all decisions and problems are solved in a short time thanks to a lean and dynamic corporate structure.**

In which all contributors can refer directly to:

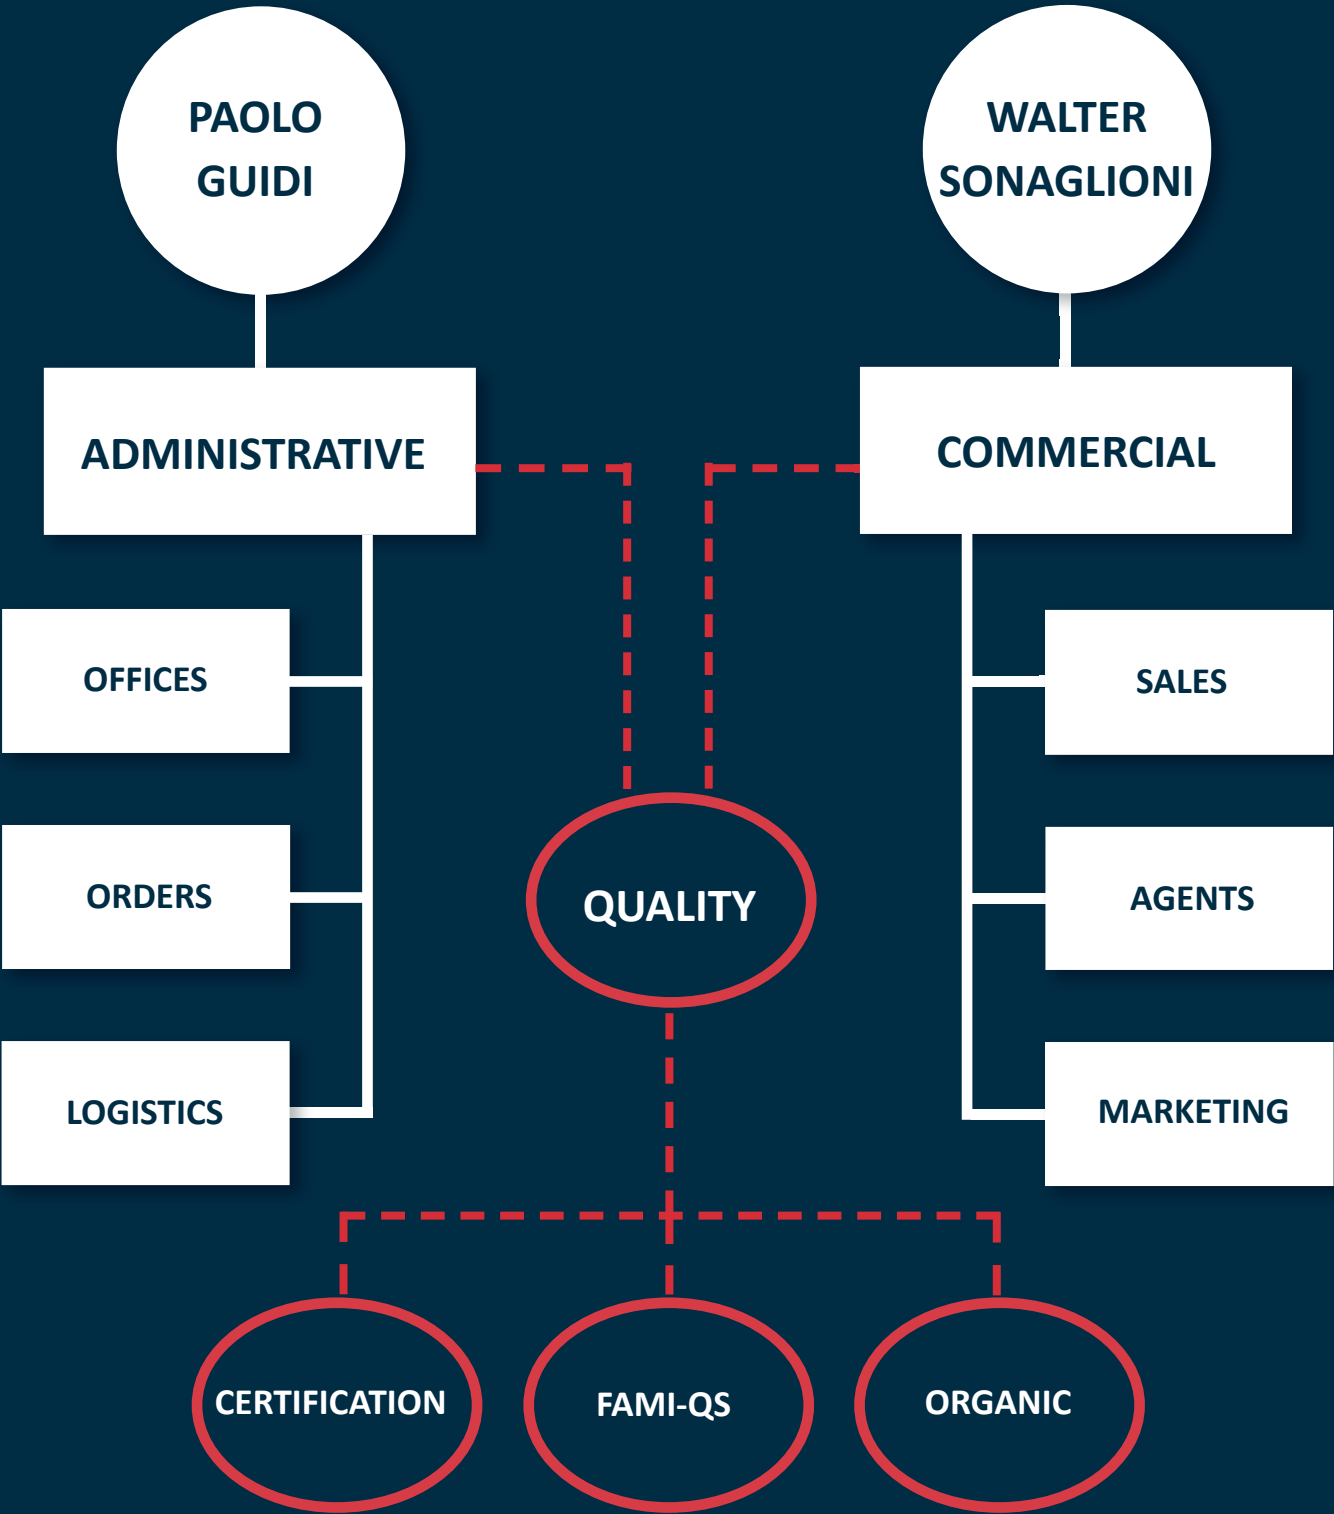

- Walter Sonaglioni who deals entirely with the business part/technical part.

And they can refer directly to:

- Paolo Guidi for the administrative and logistics part.

# ORGANIGRAM

Since 2018 following the redistribution of corporate shares, there has also been a change in the organizational structure of the company, generating as below the new organizational chart:

# CERTIFICATION AND SAFETY

## SINCE 2019

Zoochimica® is certified Bio for production and trading.

## SINCE 2020

Since 2020 is FAMI-QS certified for production and trading.

# CERTIFICATION AND SAFETY

## FAMI-QS

FAMI-QS certification, the best feeds with essential nutrients for raising chickens and other animals.

## SAFETY

Food Safety Policy, Zoochimica® maintains the highest quality standards.

## CERTIFICATION BIO

We use the organic philosophy, which involves using natural feed for our animals.

## CARE AT EVERY STAGE

ZOOCHIMICA® management in order to provide quality and food safety assurance to customers has been able to establish, document and maintain over time a management system for quality and Food Safety of complementary feed and marketed products that complies with current legislation and the FAMI-QS standard.

# MANAGEMENT OF THE SYSTEM

The system undergoes continuous monitoring and surveillance. Management is committed through the quality system manager and FAMI-QS to review the system at least once a year to verify the achievement of quality performance.

Satisfy its customers in terms of product quality, service and price, offering them proof that it will maintain and continuously improve the quality of the products it markets.

There is utmost care in business process management, environmental protection and ethical aspects.

Optimize the relationship with Suppliers/Producers in order to ensure quality assurance.

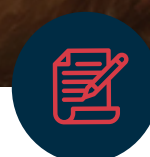

“ Zoochimica® seeks balance through innovation and research, developing safe products and foods that meet all European and global protection and safety criteria.

We involve staff in product logistics flows and sanitary hygienic safety aspects.

To improve and strengthen the company's position in the market by seeking to maintain contractual relationships over time with Customers.

We comply with hygiene, traceability and labeling regulations, laws and rules.
