

VITALACT PRO 4 TURKEY

Prebiotic Probiotic Postbiotic for turkeys

WATER-DISPERSIBLE COMPLEMENTARY FEED

Contains: Dextrose, Lysate yeast from *Saccharomyces cerevisiae* (dried inactivated), Fermentation extracts from thermally dried microorganisms (from *Lactobacillus* species)

Stabilizers of intestinal flora:

4b1700i *Bacillus subtilis* (DSM 5750)
4b1700i *Bacillus licheniformis* (DSM 5749)
4b1900 *Weizmannia faecalis* (DSM32016)
4b1705 *Enterococcus lactis* (NCIMB 10415)

Lactobacillus Heat Killed:

Lactobacillus rhamnosus CNCM-I-3698
Lactobacillus farciminis CNCM-I-3699
Lactobacillus plantarum L-137

Additives: vitamins, pro-vitamins with similar effect:

3a821 Vitamin B1 (Thiamine Monohydrate)
3a831 Vitamin B6 (Pyridoxine hydrochloride)
3a841 Calcium D-pantothenate
3a710 Vitamin K3 (Menadione bisulfite of s..)
3a925 Betaine Hydrochloride
3a315 Niacinamide (Microencapsulata)
3a825i Vitamin B2 (Microencapsulated Riboflavin)

DESCRIPTION

VITALAC 4 TURKEY is a symbiotic composed of a synergistic blend of 4 strains of highly selected live microorganisms that have been specifically chosen for their ability to control the proliferation of *Clostridium perfringens*, stimulate lactic acid production through carbohydrate metabolization and improve feed nutrient availability. In addition to the live strains, VITALAC 4 TURKEY is also composed of a post-biotic part consisting of 3 Heat-Killed strains that complement the efficacy with their metabolites and secreted molecules, they possess antimicrobial effects, modulators of the immune system and improve the defenses of the intestinal barrier.

VITALACT PRO 4 TURKEY is a modern product that is suitable for the new demands related to animal welfare, public health and farm health. With the administration of probiotics, the following are obtained:

- Improves microbiota health
- Improves stool and litter
- Reduces the risk of necrotic enteritis
- Check *Clostridium perfringens*

ACTION

1. **Quality and productivity:** -Determining a healthy microbiota through healthy microbial diversity is critical to limiting bacterial infections and meeting the nutritional needs of turkeys. Studies Strengthen Well-Documented Link Between Turkey Performance and Gut Health
2. **Effects on the immune system** - Resistance to infections - support to the immune system, mediated by the presence of: prebiotics, probiotics and postbiotics helps to reduce the onset of diseases and maintain the health of the animals
3. **Improved gut health** - Microbial balance: Modulating the gut microbiota with VITALACT PRO 4 TURKEY leads to a reduction in pathogenic microorganisms, contributing to a favorable gut environment that supports animal welfare and productivity.

DOSAGE

g.30/50-per 100 litres of water in 24 hours - Treatments of 5-7 days

g.100/150- per 100 litres of water in 8 - Treatments of 5-7 days

VITALACT PRO 4 TURKEY IS A LIVE FOOD - ADMINISTRATIONS MUST BE CARRIED OUT IN BOLUSES OF 8 HOURS

PACKAGING

Available in bags of kg. 1 in boxes of 10pcs.

Store in a cool, dry place, away from heat sources. Consume within 12 months from the date of manufacture.

FAMI-QS Certificate

Rev. 2-26
